SUMMARY

I aspire to contribute my skills and passion as a Computer Engineer to an organization committed to growth and innovation. Eager to enhance my abilities while aligning with the organizational objectives, I specialize in designing and troubleshooting both hardware and software issues. As a highly motivated full-stack developer proficient in front-end and back-end technologies, I am adept at swiftly mastering new tools to address intricate challenges. I am seeking opportunities to apply and broaden my expertise in impactful development projects.

PROJECTS

Personal Website & Portfolio

12/2022 - 02/2023

Developed a responsive portfolio website using HTML, CSS, and JavaScript to showcase projects and skills. Implemented dynamic animations and interactive elements to enhance user experience. Optimized website for various devices to ensure seamless accessibility.

Hotel Management System

08/2023 - 11/2023

Designed and developed a Hotel Management System web application using HTML, CSS, MySQL database, and Spring Boot framework. Implemented user-friendly interfaces for managing hotel reservations, customer profiles, and staff operations. Utilized Spring Boot for backend development, ensuring efficient data management and system reliability.

E-commerce website

01/2024 - 04/2024

Built an E-commerce website using HTML, CSS, JavaScript, Bootstrap, MySQL database, and Spring Boot. Developed user-friendly interfaces for browsing products, managing cart, and processing payments. Implemented backend functionalities using Spring Boot for seamless data management and system reliability.
